Nedzad Zdralovic, Chief Engineer at the County Governor of Troms and Finnmark

Ideas for a short-term action plan for AAA

Use the AAA network to share and inform members what we are doing that might be of interest for possible future cooperation. Include all members in this information sharing. Information could be sent to AAA rector and after editing published on the AAA webpage for everyone to see.

Main focus will be to share what we already are doing – focusing on the North. It may include, but are not limited to the following:

1. Educational programs
2. Student courses
3. Research activities / projects
4. Summer schools (offline / online)
5. Seminars / conferences (offline / online)
6. Workshops (offline / online)
7. Lectures (offline / online)
8. Exhibitions (offline / online)
9. Exchange of published academic materials and other information

Based on this shared information, see what we can collaborate about and make a plan for the cooperation (between two institutions or more).

Future collaboration should focus on, but are not limited to the following:

- AAA twin courses
- Joint AAA programs
- AAA online summer school
- Exchange of AAA faculty
- Exchange of AAA students
- Exchange of faculty reviewers (offline / online)

All agree that it is important to develop mutual agreements to be able to operate within the regulations in our sector. We will share suitable agreements.

Next AAA rectors meeting will be in early Friday 10th September at 09:00 Moscow time.

Ole Gustavsen
